250 LeetCode DSA Mastery Roadmap

A structured, progressive problem checklist across 18 core Data Structures & Algorithms topics.

250	18	54	157	39
Total Problems	Core Topics	Easy	Medium	Hard

How to Use This Checklist Effectively

- **Follow the sequence:** Topics 1–6 build pointer and memory fundamentals before recursion-heavy topics (Trees, Backtracking, Graphs, DP).
- **Cap your struggle time:** Spend 20–25 minutes on Mediums (35 mins on Hards). If stuck, study the optimal pattern and re-code from scratch.
- **Spaced repetition:** Re-solve any problem you needed hints on after 3 days, and again after 2 weeks.
